## COLLEGE DORMITORY DESTROYED BY FIRE

Iowa City, April 21.—Fire broke out early today in the Iowa Union, a dormitory building for men students of the University of Iowa, destroyed that structure and spread to the business district, causing a total loss of \$366,000. Only a few of the rooms in the union were occupied, the Easter vacation being in progress. Those in the building, so far as known, had barely time to make their way down the fire escapes.

## SUNDAY SCHOOL MITE BOXES WELL FILLED

St. John's Episcopal church Sunday school will have a unique service at 4 o'clock Easter Day. The members will deliver their mite boxes, which have been well filled this year through personal effort. Earning money for these boxes has been accomplished by the sale of salted peanuts, making of tobacco and needlework. The Boy Scouts collected old rubber. It is believed

## GERMAN MILITARY AUTHORITIES BAN TELLING FORTUNES

Berlin, April 21.—The military authorities have placed a ban on fortune telling. It appears that women and girls with husbands and sweethearts at the front have been misled by crystal-gazers, palmists and card readers who claimed to be able to tell when the war would end, whether men would be killed, lose an arm or a leg, gain the Iron Cross or suffer other fates.

## To Discuss New Policies

Shanghai, April 21.—Dr. Wu Tingfang has despatched a long message to the central government urging that a conference should be held in Shanghai for the purpose of discussing the form of government of China. Dr. Wu's message says the government's claim that it is carrying out the true will of the people in its present course, is not based on a thorough

## FIRST THUNDERSTORM STARTLES RESIDENTS

The first thunderstorm of the season was announced at midnight and early this morning to startled residents who were awakened and forced to close the windows of their sleeping rooms. For a time telephone communication with some of the nearby towns was interrupted. Stamford and Norwalk, Fairfield and Danbury were visited. The heavy rain aided materially in laying the dust in the city's streets.

Two memberships to the New York Stock Exchange were sold for \$81,000 each.

## CARRANZA TROOPS, OUTNUMBERING PERSHING, ON ALL SIDES OF HIM

The map herewith shows the location of General Pershing's forces in Mexico. How they are entirely surrounded by Carranza troops and outnumbered three to one. The heavy black line indicates the line of communications of the United States troops. The American forces number about 14,000 on a 375 mile line of communication. There are Carranza garrisons north, south, east and west of Pershing, the principal one being at Torreon, where General Trevino has about 4,000 men. The numerals on the map indicate the number of Carranza troops in garrisons situated at various points in Chihuahua and Sonora, extending as far as the international border, as follows: General Gutierrez, Chihuahua, 5,000; General Calles, northern Sonora, 12,000; General Herrera, Satevo, 1,200; General Gavira, Juarez, 1,800; General Bertrani, Madero, 800; General Cano, Namiquipa, 600; General Cavason, Guerrero, 500; General Davilla, Casas Grandes, 1,200. Besides these the Arrieta brothers are south of the American forces in the state of Durango with a following estimated at about 3,000.

## Another Fake Hit By Government.

The Department of Agriculture has landed on another fake. The addition of "Saponin" to food mixtures as a substitute for white of eggs has been declared officially "adulteration" under the Food and Drugs Act by the Bureau of Chemistry. This means prosecution of the people who use Saponin. Saponin is a substance that when dissolved in water foams like soap. It is extracted from plants known as soapbark and soaproot, and a few other plants, by boiling them in water. Its name is derived from the Latin word sapo, which means soap. When saponin is added to the so-called substitutes for white of eggs it produces a foam similar in appearance to the foam produced by genuine white of egg.
